The most important information I have to send you is the flight of Vidauri from Monterey, leaving 18 pieces of artillery, and dispersing his followers. He has taken the road to Eagle Pass. Prosident Juarez occupied Monterey on the 3d inst., where he was received with great demonstrations of joy.

The French fleet, which was sounding the bar of the Rio Grande, have withdrawn, probably on receiving the news from Monterey.

Seymour, remonstrating against the proposed non-payment of the interest on the State debt in gold. He takes the ground that it would be inconsistent with honesty, and if the State fails to pay it will suffer last-ing shame, and in a pecuniary point of view will lose much more in its negotiations for new loans than it will save on the interest; and that it will tend to weaken, if not destroy, the credit of the General Government in foreign markets.
